1. Two linked conferences in Canada to celebrate Barry Simon's 70th birthday
2. Announcement: ICMAA 2016
3. US travel grants sponsored by SIAM for ICMAA 2016
4. Announcement: Computational Methods and Function Theory (CMFT) 2017
5. Report on the AMS JMM Special Session on "Special Functions and q -Series"
6. Extension for special issue on "Symmetry in orthogonal polynomials"
7. Preprints in arXiv.org
8. About the Activity Group
9. Submitting contributions to OP-SF NET and SIAM-OPSF (OP-SF Talk)

Calendar of Events:

March 17–21, 2016

Number Theory in honor of Krishna Alladi's 60th birthday

University of Florida, Gainesville, Florida, USA

<http://www.qseries.org/fgarvan/alladi60.html>

March 22–24, 2016

40th South African Symposium of Numerical and Applied Mathematics (SANUM)

University of Stellenbosch, South Africa

<http://sanum.github.io>

May 6–7, 2016

Orthonet 2016,

Third meeting of the Spanish net of orthogonal polynomials and approximation theory,
Albarracín (Teruel), Universidad de Zaragoza, Spain

<https://iuma.unizar.es/es/actividades/orthonet-2016>

May 20, 2016

5èmes Journées Approximation 2016,
International Conference on Constructive Complex Approximation
Laboratoire Paul Painlevé, Université de Lille, France
<http://math.univ-lille1.fr/~bbecker/ja2016>

June 5–10, 2016

XII international Conference on Approximation and Optimization
Havana University, Cuba
<http://gama.uc3m.es/appo16>

June 6 – June 8, 2016

Second joint Conference of the Belgian, Royal Spanish and Luxembourg Mathematical Societies
Special Session on Orthogonal Polynomials and Special Functions
Universidad de la Rioja, Logroño, Spain
<http://bsl.unirioja.es>

June 27 – July 1, 2016

Abecederian of SIDE (ASIDE) 12 Summer School,
Centre de Recherches mathématiques, Université de Montréal, Montréal, Quebec, Canada
<http://www.crm.umontreal.ca/ASIDE16>

July 3–9, 2016

Symmetries and Integrability of Difference Equations 12,
Hôtel Le Chanteclerc, Saint Adèle, Québec, Canada
http://www.crm.umontreal.ca/2016/SIDE12/index_e.php

July 11–15, 2016

OPSF-S6 Summer School on Orthogonal Polynomials and Special Functions,
Dedicated to the memory and legacy of Frank W. J. Olver,
[Norbert Wiener Center for Harmonic Analysis and Applications](#),
University of Maryland, College Park, Maryland, USA
<http://www.norbertwiener.umd.edu/Education/OPSF6>

July 20–22, 2016

The 41st International Symposium on Symbolic and Algebraic Computation (ISSAC) 2016,
Wilfrid Laurier University, Waterloo, Ontario, Canada
<http://www.issac-conference.org/2016>

August 8–12, 2016

Dunkl operators, special functions and harmonic analysis,
Universität Paderborn, Paderborn, Germany
<https://math.uni-paderborn.de/arbeitsgruppen/arbeitsgruppe-harmonische-analyse/dunkl2016>

August 22–26, 2016

Conference on Methods of Modern Mathematical Physics,
A Young Researcher Symposium on the Occasion of the 70th Birthday of Barry Simon,
Fields Institute, Toronto, Canada
<http://www.fields.utoronto.ca/programs/scientific/16-17/modern-physics>

August 28–September 1, 2016

Frontiers in Mathematical Physics,
A Conference on the Occasion of Barry Simon's 70th Birthday,
CRM, Montreal, Canada
http://www.crm.umontreal.ca/2016/Simon16/index_e.php

November 28–December 02, 2016

International Conference on Mathematical Analysis and its Applications (ICMAA 2016),
Department of Mathematics, Indian Institute of Technology Roorkee (I.I.T. Roorkee), India
<http://www.iitr.ac.in/icmaa/2016/index.html>

June 26–30, 2017

OPSF-S7 Summer School on Orthogonal Polynomials and Special Functions,
University of Kent, Canterbury, UK
<http://www.kent.ac.uk/smsas/personal/opsfa>

July 3–7, 2017

14th International Symposium on Orthogonal Polynomials, Special Functions and
Applications (OPSFA14), University of Kent, Canterbury, UK
<http://www.kent.ac.uk/smsas/personal/opsfa>

July 10–15, 2017

Computational Methods and Function Theory,
Maria Curie–Skłodowska University, Lublin, Poland
<http://www.cmft2017.umcs.lublin.pl/index.html>

July 10–19, 2017

Foundations of Computational Mathematics,
Barcelona, Spain
<http://focm-society.org>

Topic #1 — OP – SF Net 23.2 — March 15, 2016

From: Jonathan Breuer (jbreuer@math.huji.ac.il) and Jacob Christiansen (stordaljc@gmail.com)
Subject: Two linked conferences in Canada to celebrate Barry Simon's 70th birthday

Barry Simon is one of the founding fathers of modern mathematical physics. His interests span a vast number of topics and his influence, through research papers, books and mentoring skills, is felt in many areas of mathematics. Among the fields where Barry has been a central figure over the years are those of quantum field theory, statistical mechanics, Schroedinger operators and the theory of orthogonal polynomials.

As part of Barry's 70th birthday celebration, and in honoring his remarkable dedication to the advancement of young mathematical physicists, a [Young Researchers Symposium](#)

covering several areas of mathematical physics will take place at the Fields Institute on August, 22–26, 2016.

The symposium will have the following format: Five distinct topics will be covered in five days. The opening talks will be given by scientific leaders who will also act as moderators. The opening lectures will be followed by talks of junior researchers and round table discussion of open problems. The topic and moderators (Monday to Friday schedule) are:

- Robert Seiringer, IST Austria, Bose–Einstein condensation;
- Rupert Frank, Caltech, Many–body quantum mechanics;
- Laszlo Erdős, IST Austria, Random matrices and random Schrödinger operators;
- Jacob Christiansen, Lund, Orthogonal polynomials; and
- Svetlana Jitomirskaya, Irvine, Spectral theory of quasi–periodic operators.

It is expected that participants will attend the whole symposium, as well as the continuation of the event, “Frontiers in Mathematical Physics, Conference on the occasion of Barry Simon’s 70th birthday” at [CRM](#) in Montreal. This conference aims to bring together leading researchers in mathematical physics for talks and discussions, with the purpose of outlining recent advances and new directions of research.

Topic #2 — OP – SF Net 23.2 — March 15, 2016

From: A. Swaminathan (swamifma@iitr.ac.in)

Subject: Announcement: ICMAA 2016

This is a first announcement and call for participation in the [International Conference on Mathematical Analysis and its Applications, 2016](#) taking place November 28, (Monday) 2016 – December 02, (Friday) 2016 at the Department of Mathematics, Indian Institute of Technology Roorkee (I.I.T. Roorkee), India.

The main objective of ICMAA 2016 is to bring mathematicians from various parts of the world working in topics related to the conference, to interact with each other and to exchange ideas. ICMAA 2016 serves as an excellent platform to inculcate research interest among young minds on recent topics of Mathematical Analysis. The SIAM Activity group on Orthogonal Polynomials and Special Functions (SIAG–OPSF) is also involved in the conference.

Topics to be covered are related to Mathematical Analysis and its applications, including but not limited to:

- Analysis of Differential Equations (including Control theory, Fractional Calculus and Stochastic PDEs);
- Complex Analysis;
- Fourier and Wavelet Analysis;
- Harmonic Analysis (including Potential theory, Harmonic Mappings and Quasi–Conformal Mappings);
- Inverse Problems and Non–linear Analysis;
- Matrix Analysis, Operator Theory and Function Spaces;
- Modern Methods of Summability and Approximation; and
- Orthogonal Polynomials and Special Functions.

SIAM will sponsor two PhD students and two early-career researchers from US-based institutions by means of travel grants.

The invited speakers are:

- Francisco Marcellán, Universidad Carlos III de Madrid and Instituto de Ciencias Matemáticas (ICMAT), Madrid, Spain;
- Walter Van Assche, Chair, SIAM-OPSF activity group, Katholieke Universiteit Leuven, Belgium;
- Stephan Ruscheweyh, University of Wurzburg, Germany;
- A. Sri Ranga, Universidade Estadual Pauslista, São Paulo, SP, Brazil;
- Mourad E.H. Ismail, University of Central Florida, USA;
- Michael Dorff, Brigham Young University, USA;
- Ram N Mohapatra, University of Central Florida, USA;
- Stamatis Koumandos, University of Cyprus, Cyprus;
- Arpad Baricz, Babes-Bolyai University, Romania;
- T. Bulboaca, Babes Bolyai University, Romania;
- Rosihan M. Ali, Universiti Sains Malaysia, Penang, Malaysia;
- Stanislaw Kanas, University of Rzeszow, Poland;
- Zdzislaw Rychlicki, University Maria Curie-Skłodowska, Lublin, Poland;
- Jacek Banasiak, University of Pretoria, South Africa;
- Yusuf Abu Muhanna, American University, Sharjah, UAE; and
- Wilson Lamb, University of Strathclyde, Glasgow, UK.

Special sessions on the following topics will be organized.

1. Orthogonal Polynomials and Special Functions
2. Geometric Function Theory
3. Analysis of PDEs

Submission of Abstracts: Delegates giving presentations/talks are requested to *submit* their abstract to the organizers at icmaa2016@iitr.ac.in or icmaa2k16@gmail.com in $\text{\TeX}/\text{\LaTeX}/\text{Word}$ format using the template given [here](#). There will be poster presentation session as well.

Proceedings: It is planned to bring out the peer-reviewed proceedings of the conference. Participants interested in submitting their papers for the proceedings can submit as per the details given in the conference [website](#).

Deadlines:

Abstract submission: June 30, 2016

Acceptance of Abstracts: July 15, 2016

Last date for early Registration: July 31, 2016

Last date of submission of short papers for the Proceedings: July 31, 2016

Local Organizers:

A. Swaminathan (Indian Institute of Technology, Roorkee)

N. Sukavanam (Indian Institute of Technology, Roorkee)

Uaday Singh (Indian Institute of Technology, Roorkee)

Ankik Kumar Giri (Indian Institute of Technology, Roorkee)

We are looking forward to meeting you in Roorkee in 2016.

For more information, see <http://www.iitr.ac.in/icmaa/2016/index.html>.

Topic #3 — OP – SF Net 23.2 — March 15, 2016

From: Walter Van Assche (walter.vanassche@wis.kuleuven.be)

Subject: US travel grants sponsored by SIAM for ICMAA 2016

The SIAM OPSF activity group has negotiated with SIAM, who agreed to sponsor two travel grants for PhD students and two for early-career researchers from US-based institutions to attend the [ICMAA 2016](#) (see Topic #2 above) conference. The candidates must belong to a US-based institution, but need not be US citizens. The travel grant covers travel expenses from US to India (and back). Please contact Walter Van Assche (walter.vanassche@wis.kuleuven.be) and Swaminathan Anbhu (swamifma@iitr.ac.in) if you are interested in this travel grant.

Topic #4 — OP – SF Net 23.2 — March 15, 2016

From: Doron Lubinsky (lubinsky@math.gatech.edu)

Subject: Announcement: Computational Methods and Function Theory (CMFT) 2017

[Computational Methods and Function Theory \(CMFT\) 2017](#), July 10–15, 2017

Maria Curie Skłodowska University, Lublin, Poland

The general theme of the meeting concerns various aspects of interaction of complex variables and scientific computation, including related topics from function theory, approximation theory and numerical analysis.

The CMFT meetings were previously held as follows:

CMFT 1989, Valparaiso, Chile;

CMFT 1994, Penang, Malaysia;

CMFT 1997, Nicosia, Cyprus;

CMFT 2001, Aveiro, Portugal;

CMFT 2005, Joensuu, Finland;

CMFT 2009, Ankara, Turkey; and

CMFT 2013, Shantou, Guangdong, China.

An important aspect of the CMFT meetings is to promote the creation and maintenance of contacts with scientists from diverse cultures.

For more information, see <http://www.cmft2017.umcs.lublin.pl/index.html>.

Topic #5 — OP – SF Net 23.2 — March 15, 2016

From: Tom Koornwinder (T.H.Koornwinder@uva.nl)

Subject: Report on the AMS JMM Special Session on “Special Functions and q -Series”

One of the AMS special sessions during the Joint Mathematics Meeting in Seattle, Washington, USA, in early January 2016 had as subject “Special Functions and q -Series”. It took place during the mornings of January 8 and 9. The session was organized by Richard Askey, Mourad E.H. Ismail, and Erik Koelink. It was unofficially dedicated to the memory of Mizan Rahman, who passed away on January 5, 2015. There were 25 minute lectures by Richard Askey, F. Alberto Grunbaum, Luc Vinet, George Andrews, Neil M. Bickford, Dennis Stanton, S. Ole Warnaar, Tom H. Koornwinder, Wolter Groenevelt, Vincent X. Genest, Michael J. Schlosser, and Gaurav Bhatnagar. Many of these lectures were coauthored. See titles and abstracts at the following [url](#). Quite remarkable was the lecture by Neil Bickford on “Special and limiting values of the Weber function and Dedekind η ”. Neil is an undergraduate student at UCLA who is working with R.W. (Bill) Gosper.

On the evening of January 8, a dinner was held in memory of Mizan Rahman. In after-dinner speeches, there were many words of admiration and friendship for Mizan. Babu Rahman, a son of Mizan, was present at the dinner, and at some of the lectures. The dinner was very-well attended. A much bigger crowd than expected showed up. The restaurant had to improvise for making enough seats at tables available.

The special session partially coincided with a special session on “Recent Advances in Orthogonal Polynomials and Special Functions,” organized by Xiang-Sheng Wang. See a report of this session in OP-SF NET 23.1, Topic #8. Both sessions might have attracted a bigger audience if they had been scheduled without coinciding.

Topic #6 — OP – SF Net 23.2 — March 15, 2016

From: Charles Dunkl (cf5z@eservices.virginia.edu)

Subject: Extension for special issue on “Symmetry in orthogonal polynomials”

In OP-SF NET 22.5, Topic #3, there is a notice about a special issue on “[Symmetry in orthogonal polynomials](#)”, in the journal “[Symmetry](#)”, of which I am guest editor. The announcement is that the submission date is now extended to August 31, 2016.

Topic #7 — OP – SF Net 23.2 — March 15, 2016

From: OP-SF Net Editors

Subject: Preprints in arXiv.org

The following preprints related to the fields of orthogonal polynomials and special functions were posted or cross-listed to one of the subcategories of arXiv.org during January and February 2016.

<http://arxiv.org/abs/1601.00322>

Orthogonal polynomials attached to coherent states for the symmetric Poschl-Teller oscillator

Topic #8 — OP – SF Net 23.2 — March 15, 2016

From: OP-SF Net Editors
Subject: About the Activity Group

The SIAM Activity Group on Orthogonal Polynomials and Special Functions consists of a broad set of mathematicians, both pure and applied. The Group also includes engineers and scientists, students as well as experts. We have around 155 members scattered about in more than 20 countries. Whatever your specialty might be, we welcome your participation in this classical, and yet modern, topic. Our WWW home page is:

<http://math.nist.gov/opsf>

This is a convenient point of entry to all the services provided by the Group. Our Webmaster is Bonita Saunders (bonita.saunders@nist.gov).

The Activity Group sponsors OP-SF NET, an electronic newsletter, and SIAM-OPSF (OP-SF Talk), a listserv, as a free public service; membership in SIAM is not required. OP-SF NET is transmitted periodically through a post to OP-SF Talk. The OP-SF Net Editors are Howard Cohl (howard.cohl@nist.gov) and Kerstin Jordaan (kerstin.jordaan@up.ac.za).

Back issues of OP-SF NET can be obtained at the websites:

<https://staff.fnwi.uva.nl/t.h.koornwinder/opsfnet>

<http://math.nist.gov/~DLozier/OPSFnet>

SIAM-OPSF (OP-SF Talk), which was recently moved to a SIAM server, facilitates communication among members and friends of the Activity Group. To subscribe or to see a link the archive of all messages, go to <http://lists.siam.org/mailman/listinfo/siam-OPSF> and follow the instructions under the sub-heading “Subscribing to SIAM-OPSF”. To contribute an item to the discussion, send e-mail to siam-opsf@siam.org. The moderators are Bonita Saunders (bonita.saunders@nist.gov) and Diego Dominici (dominicd@newpaltz.edu).

SIAM has several categories of membership, including low-cost categories for students and residents of developing countries. In addition, there is the possibility of reduced rate membership for the members of several societies with which SIAM has a reciprocity agreement; see <http://www.siam.org/membership/individual/reciprocal.php>. For current information on SIAM and Activity Group membership, contact:

Society for Industrial and Applied Mathematics
3600 University City Science Center
Philadelphia, PA 19104-2688 USA
phone: +1-215-382-9800
e-mail: service@siam.org
WWW : <http://www.siam.org>

Topic #9 — OP – SF Net 23.2 — March 15, 2016

From: OP-SF Net Editors
Subject: Submitting contributions to OP-SF NET and SIAM-OPSF (OP-SF Talk)

To contribute a news item to OP-SF NET, send e-mail to one of the OP-SF Editors
howard.cohl@nist.gov or kerstin.jordaan@up.ac.za.

Contributions to OP-SF NET 23.3 should be sent by May 1, 2016.

OP-SF NET is an electronic newsletter of the SIAM Activity Group on Special Functions and Orthogonal Polynomials. We disseminate your contributions on anything of interest to the special functions and orthogonal polynomials community. This includes announcements of conferences, forthcoming books, new software, electronic archives, research questions, and job openings as well as news about new appointments, promotions, research visitors, awards and prizes. OP-SF Net is transmitted periodically through a post to SIAM-OPSF (OP-SF Talk).

SIAM-OPSF (OP-SF Talk) is a listserv of the SIAM Activity Group on Special Functions and Orthogonal Polynomials, which facilitates communication among members, and friends of the Activity Group. See the previous Topic. To post an item to the listserv, send e-mail to siam-opsf@siam.org.

WWW home page of this Activity Group:

<http://math.nist.gov/opsf>

Information on joining SIAM and this activity group: service@siam.org

The elected Officers of the Activity Group (2014–2016) are:

Walter Van Assche, Chair

Jeff Geronimo, Vice Chair

Diego Dominici, Program Director

Yuan Xu, Secretary

The appointed officers are:

Howard Cohl, OP-SF NET co-editor

Kerstin Jordaan, OP-SF NET co-editor

Diego Dominici, OP-SF Talk moderator

Bonita Saunders, Webmaster and OP-SF Talk moderator

Thought of the month

“...not everything that counts can be counted, and not everything that can be counted counts.”

William Bruce Cameron, *Informal Sociology: A Casual Introduction to Sociological Thinking*, 1963.
